

Sea Buckthorn Male

Hippophae rhamnoides

Height: 20 feet

Spread: 10 feet

Sunlight: ○ ●

Hardiness Zone: 3

Other Names: Russian Sandthorn

Description:

An excellent large multi-stemmed color contrast shrub or small tree; fine, silver foliage all season long, extremely tolerant of dry, alkaline soils; only female plants produce fruit.

Ornamental Features

Sea Buckthorn Male is primarily grown for its highly ornamental fruit. It features an abundance of magnificent orange berries from mid fall to late winter. It has attractive grayish green deciduous foliage which emerges silver in spring. The narrow leaves are highly ornamental but do not develop any appreciable fall colour.

Landscape Attributes

Sea Buckthorn Male is an open multi-stemmed deciduous tree with a more or less rounded form. Its relatively fine texture sets it apart from other landscape plants with less refined foliage.

This tree will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Suckering

Sea Buckthorn Male is recommended for the following landscape applications;

Planting & Growing

Sea Buckthorn Male will grow to be about 20 feet tall at maturity, with a spread of 10 feet. It has a low canopy with a typical clearance of 2 feet from the ground, and is suitable for planting under power lines. It grows at a medium rate, and under ideal conditions can be expected to live for 50 years or more.

This tree does best in full sun to partial shade. It prefers to grow in average to dry locations, and dislikes excessive moisture. It is particular about its soil conditions, with a strong preference for clay, alkaline soils, and is able to handle environmental salt. It is highly tolerant of urban pollution and will even thrive in inner city environments. This species is not originally from North America.

Availability

Female plant is also available: *Hippophae rhamnoides* 'Leikora'. Showy bright orange berries in fall. 10'H x 7'W
